This Report is not a guarantee, valuation or appraisal and contains only the characteristics of the synthetic diamond described herein after it has been graded, tested, measured and analyzed by the laboratory providing this Report ("GIA") and/or has been included using the techniques and equipment used by GIA at the time of the examination and/or inscription. Inscriptions recorded in this document are not a guarantee, valuation, or warranty of a synthetic diamond's quality, identity of origin or source, or that the article will be identifiable by the inscription in the future (since inscriptions can be removed). GIA makes no representation concerning any trademark, word, or symbol which is inscribed by GIA or which is identified on this Report. The recipient of this Report may wish to consult a credible third party or geologist about the information contained herein.
