

IDENTIFICATION FEE SCHEDULE (US DOLLAR)
September 2009

IDENTIFICATION REPORTS

Identification reports professionally document the results of a full examination of a material. The results detailed will identify the material examined giving such identifying characteristics as color, transparency, shape, cut, dimensions weight and a color photo. The full report will also state whether it is natural or synthetic and if the material has been treated to enhance its appearance by an identifiable treatment. It will also be noted if it is a simulant with no known natural counterpart, or if it has been assembled from two or more separate components.
