Welcome

As a GIA graduate, I can tell you firsthand how earning a Graduate Gemologist diploma changed the course of my life. After I completed the program, I had a new set of invaluable skills – ones I could use to shape my future. I started at Borsheims as a sales associate and appraiser, and worked my way up to president. Now I have the privilege and honor of being the president and CEO of GIA.

I share this so that you know a GIA education is a true investment in your future. It provides the knowledge you need to achieve your most cherished dreams. I also want you to know that my experience is not unique. Thousands of other GIA alumni can testify to how a GIA diploma empowered them to create the future of their imaginings. GIA is uniquely qualified to help you get ahead. You’ll find a variety of programs at GIA to fuel your interest and passion.

From gemology to jewelry design, GIA offers courses that inspire and empower. Since 1931, more than 365,000 people have chosen GIA for their gem and jewelry education. Many of these alumni now hold influential positions all along the industry pipeline, and with a GIA diploma, you can take your place beside them. As a student and alumnus, you’ll become a member of the GIA family – a global network of industry professionals who share your passion and commitment to excellence.

Take some time to explore the Education Catalog and find the program that is right for you. Then get ready to embrace a whole new world of opportunities.

We look forward to helping you on your professional journey.

Susan M. Jacques, GIA GG
President and CEO

Mission

GIA’s mission is to ensure the public trust in gems and jewelry by upholding the highest standards of integrity, academics, science and professionalism through education, research, laboratory services and instrument development.

Educational Philosophy

GIA education ensures the public’s trust by delivering the highest-quality gem and jewelry education in the world. At the heart of GIA education are the following guiding principles:

Research
We design our educational programs based on the latest research and leading technology.

Relevance
We teach the necessary balance of theoretical knowledge and practical skills.

Leadership
We empower our graduates to become industry leaders who act ethically and honestly, meeting the occupational demands of the global gem and jewelry industry.

Accessibility
Our curriculum meets the various needs of all students by offering programs and courses across several learning methodologies without compromising quality.

Sustainability
Through ongoing support, our graduates are encouraged to grow continuously as confident, skilled and successful professionals. They are GIA’s partners in ensuring the public’s trust in gems and jewelry.

History

On February 15, 1931, former retail jeweler Robert M. Shipley and his wife, Beatrice, cashed in their savings to establish their long-held dream – the Gemological Institute of America.

When most jewelers knew little about the gems they traded, Shipley wanted to professionalize the industry through education, research and gemological instrumentation.

The Institute, initially based out of their home, offered mimeographed mail-order courses and provided gem-testing services using borrowed microscopes and other equipment. From these modest beginnings, GIA has become an institution that has educated more than 365,000 professionals worldwide, a prestigious laboratory grading the world’s most important diamonds, the leading gemological research center, and the creator of the 4Cs and the International Diamond Grading System™ – the worldwide standard for evaluating diamond quality.

Governance and Executive Management

Board of Governors

The GIA Board of Governors is the steward of the public interest. The board helps direct the strategy of the Institute to ensure that the mission and vision of GIA are followed in all decisions; that the reputation of GIA is preserved and continues to grow globally; and that the financial goals of the Institute are met. All governors offer a unique perspective, based on their professional experience in retail, research, education, finance, law, manufacturing and other areas; several have extensive international experience.

GIA Education Advisory Boards

The GIA Program Advisory Committee (PAC) and the Education Committee of the Governing Board are comprised of appropriately qualified representatives from the global gem and jewelry industry. The committee members provide valuable input, feedback, ideas, and multiple perspectives which are vital components to GIA’s success, growth, and improvement as a career school. Committee members also review the established curricula, course materials, equipment and facilities and student achievement outcomes as a means to provide an external review of our programs. Their valuable input supports GIA’s mission, helps to identify resources to address current occupational trends and practices, and further develops GIA’s efforts to ensure its courses and programs keep pace with the global gem and jewelry industry.

Hong Kong Campus

GIA’s Hong Kong Campus is located at 3rd Floor, New World Tower II, 16-18 Queen’s Road Central, Hong Kong. All On Campus and Lab class offerings are held at this facility unless otherwise noted in the course schedule and the student’s enrollment agreement.

Facility

GIA’s Hong Kong location occupies nearly 3,000 square feet including three classrooms, reception and administrative offices. Classrooms are equipped with the instruments and tools routinely used in each subject area.

The Hong Kong facility has been designed and constructed in compliance with any applicable laws and codes in effect at the time of design.

Classrooms and Equipment

Classrooms at the Hong Kong campus can accommodate up to 15 students. The student workroom, available by appointment, can accommodate up to 12 students.

Each classroom is amply equipped with the instruments and tools used in each subject area. Classroom equipment is detailed within each program description in this catalog.

Hours of Operation

The Hong Kong facility is open from 9:00 a.m. to 6:00 p.m., Monday through Friday.

The campus is closed on weekends and holidays, unless noted otherwise. Only students enrolled in classes with evening hours, or who have special permission, may be in the building during these hours.

Class Schedules and Classroom Hours

Visit GIA.edu/gem-education/hong-kong/schedule for up-to-date schedules.

For full-time, On Campus programs, normal classroom hours are Monday through Friday from 9:30 a.m. to 4:30 p.m. Class hours will be extended to 5:30 p.m. to accommodate for holidays or special events. Orientation is scheduled prior to the class start from 9:30 a.m. to 12:00 p.m.

Blended / accelerated programs are scheduled from 9:30 a.m. to 12:30 p.m. or 6:45 p.m. to 9:45 p.m. (night classes).

Lab classes are scheduled from 9:30 a.m. to 5:30 p.m. (day classes) or 6:45 p.m. to 9:45 p.m. (night classes).

Students should expect to spend several hours each day outside of class on homework and other assigned projects. There is a scheduled lunch break every day. Other breaks are given at each instructor’s discretion. Classrooms are secured and students are required to leave the classroom during these breaks, unless otherwise directed by the instructor.
On Campus and Distance Education

Just as GIA has set standards for grading and identification practices used around the world, GIA also set the standard for professional training in gems and jewelry. How we deliver your education is just as important as what we deliver.

On Campus Education

Study full-time at a GIA campus or location to gain the knowledge and practical skills to translate your love for gems and jewelry into a rewarding career. On Campus diploma programs and certificate courses are full-time, instructor-led programs and courses lasting seven weeks or longer.

Classrooms equipped with the latest tools and equipment, small classes conducive to personalized instruction, and caring and attentive staff dedicated to your success. Class sizes are small to maximize individual attention from instructors. You'll learn by doing, working with expert instructors ready to provide guidance and answer questions, and you'll collaborate with fellow students who share your passion for gems and jewelry.

Distance Education

GIA Distance Education offers a more flexible option to earn your GIA credential through a combination of correspondence courses and short instructor-led Lab classes.

Correspondence courses are self-paced. You can study and increase your knowledge at your convenience.

Lab classes are where you gain hands-on experience by grading diamonds and identifying gemstones under the watchful eye of a GIA instructor. In the process, you will learn to use professional gemological equipment.

How it Works

- Your instructor is available by email or phone to answer questions and provide instruction and support.
- Submit your assignments to your instructor through email.
- Each correspondence course has a completion date which reflects the maximum allowed time to complete all course requirements and the final exam.
- Generous completion times allow you to study at a pace that fits your schedule.
- See it all come together with practical, hands-on Lab classes.

Student Workrooms

GIA Student Workrooms give you access to all the equipment and gemstones you need to complete the practical requirements of your Gem Identification course. This self-study room is also available if you are preparing for your 20-stone final exam, taking a supervised exam, or practicing on equipment and gemstones.

Student workroom is available on a first-come, first-served basis. Please contact us at +852 3166 7001 or giahongkong@gia.edu to determine availability and reserve a seat. Fees are 500 HKD half day or 1,000 HKD full day for the use of Student Workroom. No fees for exams.

Students who wish to cancel their reservation must notify GIA at least 24 hours in advance. Otherwise, students will be charged for the reservation.

Students attending the Student Workroom must arrive on time at the start of each session, morning and afternoon. Students who are repeatedly late may lose Student Workroom privileges. Reservations are not guaranteed for students who arrive late.

Blended / Accelerated Education

This program offers a blend of both correspondence courses and lab classes as accelerated, instructor-led courses taken at GIA’s Hong Kong location. Programs are offered as 3-hour classes, day or night, over an extended period of time.

Graduate Gemologist®

Program Description

The GIA Graduate Gemologist® diploma program delivers a comprehensive gemology education on diamonds and colored stones. Using the latest gemological equipment, you will work with real diamonds and gemstones under the trained eyes of GIA instructors. Through extensive lab work, you will practice identifying and grading diamonds and colored stones in an efficient, accurate and consistent manner. Skills taught include evaluating a diamond’s proportions; distinguishing natural, treated and laboratory-grown gemstones; and using the GIA Colored Stone Grading System to determine gemstone quality.

What You Will Learn

- Develop in-depth, hands-on experience with the GIA International Diamond Grading System™ and the 4Cs (color, clarity, cut and carat weight)
- Grade diamonds in the D-to-Z color range
- Build a knowledge base about colored stones and the colored stone market
- Use gemological equipment effectively to identify gemstones
- Use the GIA Colored Stone Grading System to evaluate gemstone quality
- Identify gemstone characteristics, simulants and treatments, laboratory-grown gemstones and recognize when advanced testing is required
- Understand how gems are mined, fashioned and brought to the marketplace
- Recognize how quality, rarity and color affect value
- Determine how market factors affect gem value

What You Earn

- GIA Graduate Gemologist® Diploma
- GIA Graduate Diamonds Diploma
- GIA Graduate Colored Stones Diploma

Occupations May Include

- Appraiser, Auction House Jewelry Specialist, Colored Stone Buyer, Diamond Buyer, Diamond Sorter/Grader, Estate Jewelry Dealer, Gemologist, Inventory Control Specialist, Jewelry Business Owner, Jewelry Buyer, Lab and Research Professional, Merchandiser, Pawnbroker, Retailer, Sales Associate and Wholesaler

The Graduate Gemologist program offered through GIA Hong Kong is registered with the Hong Kong Education Bureau (EDB) under Non-local Higher and Professional Education (Regulation) Ordinance (Cap. 493); registration No. 360472. It is a matter of discretion for individual employers to recognize any qualification to which this course may lead.

How to Earn your Diploma

Earn your diploma through On Campus Education, Distance Education, or Blended / Accelerated Education.

On Campus Education

Earn your diploma by studying full-time at the GIA Hong Kong campus.

Equipment and Materials

Each classroom is equipped with an electronic balance with hydrostatic unit, a GIA DiamondDock™, GIAid100®, a UV lamp with viewing cabinet, a table model prism spectrocope, a color filter and a fiber-optic light unit. Each student workstation has a binocular microscope with an overhead light source, a diffuser plate and utility lamp. As part of your course materials, you will receive and keep a 10x loupe, tweezers, a gem cloth, a pointer probe, plotting pens, a table gauge, a crown angle card, a color grading card, a refractometer with polarizing filter and removable magnifying eyepiece, refractive index (RI) liquid, a polariscope, a dichroscope, a handheld spectrocope, a pinpoint incandescent light source, lab manuals and printed course materials.
Distance Education

Earn your diploma via Distance Education by taking five correspondence courses and three Lab classes. GIA’s Hong Kong campus offers correspondence courses in Chinese. For information on eLearning courses taught in English, visit GIA.edu

Distance Education students who exceed the allowed completion time receive a final grade of No Pass (NP) on their official transcript. If you are considering enrolling in multiple courses, note that completion times run concurrently, with each course having an end date; therefore, schedule your enrollments with this in mind.

Some courses have prerequisites. Prerequisite information is listed below. For those courses and lab classes that do not have prerequisites, you can take these courses and lab classes in any order. We recommend the sequence below to maximize your comprehension of key concepts and course objectives.

Recommended Sequence

GEM 130, GEM 230, GEM 230L, GEM 120, GEM 220, GEM 220L, GEM 240L, GEM 240

Graduate Diamonds

Program Description
The Graduate Diamonds diploma program examines the technical expertise needed to grade, buy, and sell diamonds with the insight of a seasoned professional. This diploma program explores the GIA diamond grading procedures to assess the 4Cs – color, clarity, cut and carat weight – and how they affect diamond value. Students use professional diamond grading equipment for the purposes of examining a diamond’s quality characteristics to grade and identify diamonds. Coursework also includes creating plotting diagrams; determining fluorescence; and detecting treated diamonds, laboratory-grown diamonds and diamond simulants. Other topics covered include the effect of fluorescence on diamond body color, and the role cut plays in the marketplace and important sectors of the diamond industry, including dealers, cutters and manufacturers.

What You Will Learn
- Develop in-depth, hands-on experience with the GIA International Diamond Grading System™ and the 4Cs (color, clarity, cut and carat weight); appreciate how they affect diamond value
- Grade diamonds in the D-to-Z color range
- Detect diamonds treatments, simulants and laboratory-grown diamonds.
- Recognize when advanced testing is required

What You Earn
GIA Graduate Diamonds Diploma

Occupations May Include
Auction House Jewelry Specialist Diamond Buyer, Diamond Sorter/Grader, Jewelry Business Owner, Retailer, Wholesaler

Visit GIA.edu/gem-education/hong-kong/schedule for up-to-date schedules.

Equipment and Materials
Each classroom is equipped with an electronic balance with hydrostatic unit, a GIA DiamondDock™, GIA iD100®, a UV lamp with viewing cabinet. Each student workstation has a binocular microscope with an overhead light source. As part of your course materials, you will receive and keep a 10x loupe, tweezers, a gem cloth, a pointer probe, plotting pens, a table gauge, a crown angle card, a color grading card, a lab manual and printed course materials.
Distance Education

Earn your diploma via Distance Education by taking two correspondence courses and one Lab class. GIA’s Hong Kong campus offers correspondence courses in Chinese. For information on eLearning courses taught in English, visit GIA.edu

Distance Education students who exceed the allowed completion time receive a final grade of No Pass (NP) on their official transcript. If you are considering enrolling in multiple courses, note that completion times run concurrently, with each course having an end date; therefore, schedule your enrollments with this in mind.

Some courses have prerequisites. Prerequisite information is listed below. For those courses and lab classes that do not have prerequisites, you can take these courses and lab classes in any order. We recommend the sequence below to maximize your comprehension of key concepts and course objectives.

Rough and polished diamonds.
Graduate Colored Stones

Program Description

The Graduate Colored Stones diploma program explores the identification of common and unusual gemstones found in the marketplace. Subjects covered include the GIA Colored Stone Grading System and the correct usage of standard gemological equipment to distinguish natural, treated and laboratory-grown gemstones. The program also examines which gems are commercially important, shifting supply patterns, and how these factors affect gem prices and availability. This program also includes the study of more than 60 species of gemstones, and how illumination techniques can facilitate the identification process.

What You Will Learn

- Build a knowledge base about colored stones and the colored stone market
- Use gemological equipment effectively to identify gemstones
- Use the GIA Colored Stone Grading System to evaluate gemstone quality
- Recognize how quality, rarity and color affect value
- Determine how market factors affect gem value
- Understand how gems are mined, fashioned and brought to the marketplace

What You Earn

GIA Graduate Colored Stones Diploma

Occupations May Include

Appraiser, Auction House Jewelry Specialist, Colored Stone Buyer, Estate Jewelry Dealer, Jewelry Business Owner, Jewelry Buyer, Pawnbroker, Retailer, Wholesaler

How to Earn your Diploma

Earn your diploma through On Campus Education, Distance Education, or Blended / Accelerated Education.

On Campus Education

Earn your diploma by studying full-time at the GIA Hong Kong campus.

Program Description

The Applied Jewelry Professional™ (AJP®) diploma program covers topics including jewelry designs, setting styles, jewelry care and other content that will support the product knowledge of current industry professionals. The AJP® program also introduces basic information about diamonds, rubies, emeralds, sapphires and the GIA clarity grading system. Other subjects of study include how modern technology is changing the way diamonds are cut, the qualities of precious metals, major jewelry manufacturing methods and the important activities involved in the operation of a retail jewelry store. To enable effective product conversations, examples are provided on how to translate jewelry features into benefits and how to communicate the 4Cs of diamond value to customers. The AJP® program provides clear and concise information that can be immediately implemented on the job.

What You Will Learn

- Describe how the 4Cs (color, clarity, cut and carat weight) affect a diamond’s value
- Recognize the relationship between size and weight of diamonds
- Explain the differences between treated, laboratory-grown and imitation stones to sell with full disclosure
- Understand the steps of the jewelry sales process
- Translate jewelry design, style and manufacturing features into benefits
- Convey the romance, lore and characteristics of the most popular colored gemstones

What You Earn

GIA Applied Jewelry Professional™ Diploma

Occupations May Include

Jewelry Assistant Manager, Jewelry Sales Professional, Television Shopping Host, Pawnbroker

Distance Education

Complete the Applied Jewelry Professional™ program by taking three correspondence courses. GIA’s Hong Kong campus offers correspondence courses in Chinese. For information on eLearning courses taught in English, visit GIA.edu

Distance Education students who exceed the allowed completion time receive a final grade of No Pass (NP) on their official transcript. If you are considering enrolling in multiple courses, note that completion times run concurrently, with each course having an end date; therefore, schedule your enrollments with this in mind.

Graduate Pearls

Program Description
The Graduate Pearls diploma program provides the product knowledge and grading skills to effectively buy inventory and build confidence when buying and selling akoya, South Sea, Tahitian and freshwater pearls. You will be taught GIA’s 7 Pearl Value Factors™: size, shape, color, luster, surface quality, nacre quality and matching – the essential criteria for assessing the value and beauty of pearls. Topics covered include post-harvest treatments, imitation pearls and pearl testing.

What You Will Learn
- Explain the differences between natural and cultured pearls
- Evaluate and grade cultured pearls based on GIA’s 7 Pearl Value Factors™
- Describe the components of the GIA Pearl Report(s)
- Describe cultured pearl types and their sources
- Identify “other” pearl types found in the marketplace
- Describe common pearl treatments
- Understand the relationship of beauty, value, and quality
- Learn the process of pearl culturing and marketing

What You Earn
GIA Graduate Pearls Diploma

Occupations May Include
Jewelry Business Owner, Pearl Buyer, Pearl Sorter/Grader, Retailer, Wholesaler

Distance Education
Earn your Graduate Pearls diploma via Distance Education by taking one correspondence course and one Lab class. GIA’s Hong Kong campus offers correspondence courses in Chinese. For information on eLearning courses taught in English, visit GIA.edu

Distance Education students who exceed the allowed completion time receive a final grade of No Pass (NP) on their official transcript. If you are considering enrolling in multiple courses, note that completion times run concurrently, with each course having an end date; therefore, schedule your enrollments with this in mind.

Jewelry Design

Program Description
In this intensive nine-week course, instructors teach creative and technical hand-rendering skills needed to begin a career as a custom jewelry designer. Jewelry design theory helps students acquire a working knowledge of jewelry artistry. Skills covered include: illustrating the shape, form and texture of metal; working with drafting tools; and rendering yellow and white metals as well as a range of faceted and cabochon gemstones and pearls. Instructors show how to illustrate rings in five different views and how to keep design ideas flowing. At the completion of this course, you will have a hand-developed portfolio of your work and a digital copy to show prospective employers and clients.

What You Will Learn
- Develop sources of inspiration
- Understand jewelry design theory and artistry
- Illustrate shape, form, and texture of metal
- Render faceted gems, pearls, colored metals, etc.
- Learn traditional drafting techniques
- Develop motifs to create sketches of jewelry objects
- Create a portfolio of class projects and custom designs that is ready for presentation to potential clients and employers

What You Earn
GIA Jewelry Design Certificate

Occupations May Include
Custom Designer, Hand Renderer, Jewelry Business Owner Jewelry Designer, Sales Associate

On Campus Education
Earn your diploma by studying full-time at the GIA Hong Kong campus.

Equipment and Materials
Student workstations are equipped with a drafting board. As part of your course materials, you will receive a design toolkit, which contains a variety of paints, pencils, brushes, templates, papers and vellum, other art tools and printed course materials.
Lab Class Descriptions

GEM 230L Diamond Grading Lab

Required for: Graduate Gemologist®, Graduate Diamonds Diplomas

Through a unique combination of hands-on training, one-on-one coaching and multimedia, the Diamond Grading Lab class explores how to grade diamonds consistently and accurately using a modern gem microscope and a loupe. Students study GIA's International Diamond Grading System™, explore time-saving shortcuts to determine a variety of grading factors, and are introduced to methods for reading a GIA Diamond Grading Report. You will spend more than 16 hours practicing grading techniques on diamonds that were carefully selected and graded by GIA. In the process, you will study how to recognize the most common diamond features. Students must pass a two-stone practical exam to complete the class successfully. Classrooms contain a GIA DiamondDock™ and UV lamp with viewing cabinet. Each student workstation has a binocular microscope with an overhead light source, a loupe, tweezers, an LED light, a calculator and a diamond grading tray. As part of your course materials, you will receive and keep a lab manual, a pointer probe, a gem cloth, a plotting pen set, a table gauge, a crown angle card and a color grading card.

Class duration: 5 days or 12 nights (35 clock hours)
What you earn: Letter of Completion

GEM 240L Gem Identification Lab

Required for: Graduate Gemologist®, Graduate Colored Stones Diplomas

In this lab, students practice the same time-tested procedures and identification skills used by the Institute’s renowned gemological experts. Students use gemological instruments to practice identifying natural and laboratory-grown gemstones, imitations and assembled stones. Along with this hands-on training, your instructors will carefully demonstrate key tests and coach you in quick, effective testing procedures. (See Student Notification of Classroom Chemical Usage) Students must pass an instrumentation exam to complete the class successfully. Classrooms contain a table model prism spectroscope, a color filter, a fiber optic light, a UV lamp with viewing cabinet and a utility lamp. Each student workstation has a binocular microscope with overhead light source, a handheld spectroscope, a dichroscope, a refractometer with polarizing filter and removable magnifying eyepiece and refractive index (RI) liquid, a diffuser plate, an optic figure sphere, a polariscope and tweezers. As part of your course materials, you will receive and keep a lab manual, a gem cloth, a pinpoint incandescent light source and a color grading card.

Class duration: 5 days or 12 nights (35 clock hours)
What you earn: Letter of Completion

GEM 220L Colored Stone Grading Lab

Required for: Graduate Gemologist®, Graduate Colored Stones Diplomas

Through extensive hands-on practice using gemstones, you will explore grading the color, clarity and cut quality of a wide range of colored stones. Coursework includes the study of the GIA Colored Stone Grading System; how to describe color by hue, tone and saturation; and how to judge gem quality factors. Topics also include the relationship between light and color and developing color memory. Study of this content can improve the consistency and accuracy of colored stone grading skills. Students must pass a two-stone practical exam to complete the class successfully. Each student workstation includes either a binocular microscope or daylight equivalent light source, tweezers and a 10x loupe. As part of your course materials, you will receive and keep a lab manual, a gem cloth, a pinpoint incandescent light source and a color grading card.

Class duration: 3 days or 7 nights (21 clock hours)
What you earn: Letter of Completion

GEM 149L Pearl Grading Lab

Required for: Graduate Pearls Diploma

Discover how the world’s foremost experts determine the quality of akoya, freshwater, South Sea, and Tahitian pearls. Explore GIA’s 7 Pearl Value Factors™. Key topics include how to evaluate cultured pearls in order to promote the relationship between beauty, value and quality in merchandise. Students must pass a two-stone assessment to complete the class successfully. Classrooms contain a pearl gauge and other instruction aids. Each student workstation includes either a binocular microscope or a daylight equivalent light source, and a pearl grading master set with an informational keycard. As part of your course materials, you will receive and keep a gem cloth and a lab manual.

Class duration: 1 day or 2 nights (7 clock hours)
What you earn: Letter of Completion
Correspondence Course Descriptions

GIA’s Hong Kong campus offers correspondence courses in Chinese. For information on eLearning courses taught in English, visit GIA.edu

GEM 110 Jewelry Essentials

Required for: Applied Jewelry Professional™ Diploma

This course examines jewelry’s important features and how they combine to give a piece its unique value. Content includes the unique qualities of precious metals, how to describe them to customers, and how to identify jewelry types and styles, using industry terms to describe them. Coursework also includes an examination of the different jewelry manufacturing methods, and how they can affect style, appearance and durability. Other topics include how precious metals are regulated, marketed and tested, and the key components of a compelling product presentation. The course also covers watches and giftware. The final exam is open book and does not require a proctor.

Self-paced; maximum completion time: 3 months
Number of assignments: 6
What you earn: Jewelry Essentials Certificate

GEM 120 Colored Stone Essentials

Required for: Applied Jewelry Professional™, Graduate Gemologist®, Graduate Colored Stones Diplomas

This course provides basic, essential knowledge of colored stones, with an in-depth focus on the “Big Three” of the gemstone world: ruby, sapphire and emerald. Subjects covered include the language of colored stones; color’s powerful role in gemstone value and the unique characteristics of popular colored stones; and how color, clarity, cut and carat weight affect a gem’s value. Reference material includes the GIA Essential Colored Stone Reference Guide, which contains important and interesting facts about today’s most popular gemstones. The final exam is open book and does not require a proctor.

Self-paced; maximum completion time: 3 months
Number of assignments: 8
What you earn: Colored Stone Essentials Certificate

GEM 130 Diamond Essentials

Required for: Applied Jewelry Professional™, Graduate Gemologist®, Graduate Diamonds Diplomas

This course covers how to describe diamond jewelry accurately for effective and ethical sales conversations with customers. Key topics examined include the internationally accepted GIA clarity grading system, how diamonds are graded for color and how color affects value. Coursework includes how modern technology is changing the way diamonds are cut, the relationship between size and weight and how retail jewelry stores operate. The final exam is open book and does not require a proctor.

Self-paced; maximum completion time: 3 months
Number of assignments: 7
What you earn: Diamond Essentials Certificate

GEM 220 Colored Stones

Required for: Graduate Gemologist®, Graduate Colored Stones Diplomas
Prerequisite: GEM 120

The next step after Colored Stone Essentials, this course provides in-depth knowledge about the multitude of colored stones sold in today’s market. Topics include: which gems are commercially important and why, the differences in gem values and shifting supply patterns, and how these factors affect gem prices and availability. The final exam is closed book and proctored; see Distance Education Exams on page 34 for details.

Self-paced; maximum completion time: 18 months
Number of assignments: 27
What you earn: Colored Stones Certificate

GEM 230 Diamonds & Diamond Grading

Required for: Graduate Gemologist®, Graduate Diamonds Diplomas
Prerequisite: GEM 130

This course covers the skills needed to grade the color, clarity and cut of diamonds. Subjects explored include determining proportions and estimate weight; the fundamentals of diamond treatments, simulants and laboratory-grown diamonds; and the effect of fluorescence on diamond body color. Other topics discussed include the role cut plays in the marketplace; the technical knowledge needed to make effective buying and selling decisions; and other segments of the diamond industry – dealing, cutting, manufacturing. The final exam is closed book and proctored; see Distance Education Exams on page 34 for details.

Self-paced; maximum completion time: 15 months
Number of assignments: 20
What you earn: Diamonds & Diamond Grading Certificate
GEM 240 Gem Identification

Required for: Graduate Gemologist®, Graduate Colored Stones Diplomas
Prerequisites: GEM 120, GEM 220, GEM 240L

Practice identifying more than 60 species of gemstones, distinguishing natural from laboratory-grown gems and detecting gem treatments. You will carry out testing procedures and techniques on sets of practice stones. Study the latest gem treatments in the market today, and how illumination techniques can facilitate the identification process. Additionally, the course covers how – and when – to use gemological laboratory services and how to use gem identification skills to protect your business from costly mistakes. The final practical exam is closed book (except for the lab manual) and proctored; see Distance Education Exams on page 34 for details.

Self-paced; maximum completion time: 24 months
Number of assignments: 44 (19 written and 25 practical)
What you earn: Gem Identification Certificate

Required Equipment
Prior to registering for Gem Identification course, students must contact their primary instructor in order to confirm their access to required equipment listed below and discuss course details. The equipment listed below is not included with the course, however required for successful progress and completion of the practical coursework.

- Gem tweezers (non-locking)
- Daylight-equivalent fluorescent light source (5500k - 6500k)
- Monochromatic light source
- Pinpoint incandescent light source
- Gemological binocular microscope minimum 10x and 30x (darkfield illumination)
- Gem cloth
- Refractometer with removable magnification piece, white light source, and polarizing filter
- Refractive index (RI) liquid 1.81
- Optic figure sphere
- Dichroscope (calcite preferred)
- Polariscope
- Spectroscope
- Diffuser Lens (plastic or glass)

Students who do not have access to this equipment may purchase a GIA Gem Identification Student Package through store.GIA.edu for an estimated total retail price of 2,500 USD plus shipping, handling, and applicable tax. This package does not include a binocular microscope. Students may also purchase this equipment through GIA Hong Kong. Please contact us at +852 3166 7001 or giahongkong@gia.edu for more information.

As an alternative, students can complete assignments in a fully equipped GIA Student Workroom.

GEM 149 Pearls

Required for: Graduate Pearls Diploma

This course examines how to buy and sell akoya, South Sea, Tahitian and freshwater pearls with insight and skill; and GIA’s 7 Pearl Value Factors™: size, shape, color, luster, surface quality, nacre quality and matching. You will be taught the difference between natural and cultured pearls, post-harvest treatments, imitation pearls and pearl testing. The final exam is open book, and does not require a proctor.

Self-paced; maximum completion time: 6 months
Number of assignments: 8
What you earn: Pearls Certificate

Admissions Policies and Procedures

Admissions Requirements

Applicants must be at least 18 years of age and have a high school diploma or equivalent to be admitted into GIA courses and programs.

An applicant wishing to enroll in an On Campus program taught in English must demonstrate English proficiency by meeting GIA’s English language proficiency requirement.

Required Documentation

In addition to your completed application, the GIA campus in Hong Kong requires the following documents. For classes taught in English, all documents must be in English or accompanied by a certified copy of English-language translation. GIA accepts copies, but may request original documentation.

1. A copy of your valid Hong Kong ID or passport identifying your full name, birth date, citizenship, and country of birth.
2. Copy of high school, high school equivalency, or college/university diploma or an official transcript showing the graduation date.
3. Documentation of your English language proficiency (On Campus English-language courses only; see English-Language Proficiency Requirements on page 25).

If your legal name has changed, and your required documents reflect a previous name, you must submit a legal name change document, such as a marriage certificate.

English-Language Proficiency Requirements

An applicant wishing to enroll in an On Campus program taught in English must demonstrate English proficiency by meeting one of these requirements.

- Test of English as a Foreign Language (TOEFL®): Obtain a minimum score of 61 on the Internet-based next generation TOEFL or 500 on the paper-based TOEFL test. Please note that the Institutional TOEFL (iTP) test does not meet GIA’s requirements. ets.org/toefl
- International English Language Testing System (IELTS™) exam: Achieve an overall band score of at least 6.0 on the Academic IELTS test. ielts.org
- International Test of English Proficiency (iTEP Academic-Plus®): Achieve iTEP Level 4 or higher on the iTEP Academic-Plus test. ITEPexam.com
- Pearson Test of English Academic (PTE®): Achieve a score of 50 or higher on the PTE Academic test. pearsonpte.com
- Cambridge English Exams: Earn an overall Cambridge English Scale score of 173 or higher on the B2 First, C1 Advanced or C2 Proficiency cambridgeenglish.org/exams-and-tests/
- ELS Language Centers: Successfully complete the level 109 or higher course. Submit your official ELS academic record to GIA; certificates are not accepted. Please request your ELS academic record from the Academic Director of the ELS campus you attended. els.edu
- English as the medium of instruction:
  - If you graduated from a school in a country where English is the official language, submit a copy of your diploma or an official transcript. See Required Documentation on page 25.
  - If you graduated from a school in a country where English is not the official language, submit an official letter specifying English was the medium of instruction. This letter must be on the school’s letterhead, signed and dated by the dean, director, or headmaster, stating years of study, diploma or degree earned.
  - If you attended but did not graduate, you must have completed a minimum of three years at a school where English was the medium instruction. Submit supporting documentation on the school’s letterhead, signed and dated by the dean, director, or headmaster, stating years of study, diploma or degree earned.

*TOEFL®, IELTS™, iTEP and PTE academic scores are valid for two years from the date of the examination.

How to Apply and Related Deadlines

GIA offers classes all year around. There are no application deadlines and students are enrolled on a first-come, first-served basis. Class sizes are limited, so apply early. We recommend you apply at least 2 to 3 months before the start date, especially international students who need to obtain a visa.

If a class reaches capacity, you will be placed on a waitlist and notified if a seat becomes available.

To apply, download the application form at GIAhongkong.com. Submit the application form, payment and all required documents to GIA in person, by mail, by fax or via email:

3rd Floor, New World Tower II 16-18 Queen’s Road Central Hong Kong
E: giahongkong@gia.edu

Your admission is not confirmed until GIA has received a completed application, any required documents, payment, and you have received confirmation from GIA. GIA will notify you of your acceptance or denial of admission.

Students wishing to apply for admission at a GIA campus other than Hong Kong should contact the appropriate campus directly, or for additional information about admissions requirements and the application process visit the campus section on GIA.edu

To apply for Distance Education (eLearning) classes taught in English, visit GIA.edu for more information.
Payment Methods / Student Accounts

All payments must be in Hong Kong Dollar drawn on a licensed bank in Hong Kong.

Our staff members are available Monday through Friday from 9:00 a.m. to 6:00 p.m. to accept payments and to discuss your account. Contact us at +852 3166 7001 or giahongkong@gia.edu

Please note the following information regarding payment methods:

- Bank Transfer: Bank transfer shall be made to HSBC HK bank account of GIA Hong Kong Ltd. Please contact us for details.
- Wire Transfer: Wire transfers are accepted with email or online enrollments. Please contact us for details. Students are responsible for any wire transfer fees.
- Check: Cashier order or personal check shall be made to payee only in favor of GIA Hong Kong Ltd. and drawn on a licensed bank in Hong Kong.
- Credit Card Payment: VISA or MasterCard or Union Pay is accepted for in person payment only at our campus.
- Cash or cash deposit is not accepted.

Students who owe GIA past due monies may not enroll in future courses or programs until they have settled the payment.

Third-Party Payer Information

If someone other than the student is paying any part of a student’s tuition and fees, such persons will be required to provide their full name, country of residence at the time of payment. If a student’s employer is paying any part of a student’s tuition and fees, the student or the employer will be required to provide the full company name and address or other identifying information at GIA’s request.

Scholarships

GIA-administered scholarships are available for On Campus and Distance Education (Correspondence and Lab class) students. Applicants will be considered for all available scholarships for the program they indicate on their application.

Details on eligibility, how to apply, and required documents are available at GIA.edu/scholarships

Scholarship recipients are responsible for all non-course related expenses, including but not limited to visa application, travel, housing, food and other expenses.

Applicant Screening

All applicants are screened against global watch lists. Because GIA is a U.S.-based corporation, all GIA schools must comply with U.S. Office of Foreign Assets Control (OFAC) regulations and other applicable laws and regulations. Additional information may be requested.

Prior Criminal Offenses

GIA is committed to maintaining a safe and supportive learning community for all students. Certain prior criminal convictions may result in challenges for securing employment and ineligibility for certain forms of federal financial aid. All applicants are asked to provide general information regarding prior convictions. Any falsification or omission of data may result in denial of admission or disciplinary action, up to and including dismissal. An affirmative response to being convicted of a felony will not automatically prevent admission but will require that the applicant submit the following documents to be reviewed by the Admissions Committee:

- A detailed explanation of the circumstances surrounding the felony and how a GIA education will support the applicant’s career goals
- A copy of court documents stating the judgment, sentence, disposition, and any terms of parole or probation
- At least one character reference letter from a non-relative, written on appropriate letterhead

In the process of reviewing the applicant’s request for admission, multiple considerations are made. GIA reserves the right to deny an applicant’s request for admission if, for example, a prior felony conviction may be a safety concern, or could prevent the applicant from successfully securing employment within the industry or completing the program. GIA will respond to the student within 10 business days upon receiving the application.

Visa Requirements for International Students

A valid student visa with GIA Hong Kong as the institute name is required for full-time On Campus programs including Graduate Gemologist, Graduate Diamonds and Graduate Colored Stones. Applicants who enter Hong Kong under another visa type, such as a visitor or work visa, cannot attend GIA’s full-time On Campus programs. International students have the responsibility to check all the immigration criteria for the student visa application before applying for full-time On Campus programs. For details, please go to Hong Kong Immigration Department website: immd.gov.hk/eng

Local sponsorship as required in Form ID/EI-936B is necessary for student visa application under Hong Kong immigration rules and regulations. GIA Hong Kong does not sponsor students. Students have the responsibility for their own local sponsorship. Student visa application is not applicable to students from certain countries listed from Hong Kong Immigration Department website: immd.gov.hk/hkt/services/visas/study.html

Once GIA receives all of the required admissions documents, you will receive a Letter of Acceptance which you can use to apply for your visa. If your visa application is unsuccessful, payment received will be fully refunded. GIA Hong Kong is not responsible for any issues that might arise from the student visa application process.
Admissions Policies and Procedures (cont.)

Nondiscrimination Policy

It is GIA’s policy not to engage in discrimination against, or harassment of any student enrolled in or seeking enrollment in GIA on the basis of race, color, national or ethnic origin, ancestry, religion, creed, gender, age, disability, medical condition, pregnancy or parental status, marital status, sex, sexual orientation, veteran status, gender identity, caste, union membership, political affiliation, physical appearance, HIV status, or any other classification protected by applicable federal and state nondiscrimination, equal opportunity laws, orders and regulations. This policy on non-discrimination applies to admissions, enrollment, scholarships, loan programs, employment, and access to participation in all GIA programs and activities.

Notice Concerning Transferability of Credits and Credentials Earned at Our Institution

The transferability of credits you earn at the Gemological Institute of America is at the complete discretion of the institution to which you may seek to transfer. Acceptance of the diploma or certificate you earn in the educational program is also at the complete discretion of the institution to which you may seek to transfer. If the diploma or certificate that you earn at this institution is not accepted at the institution to which you seek to transfer, you may be required to repeat some or all of your coursework at that institution. For this reason, you should make certain that your attendance at this institution will meet your educational goals. This may include contacting an institution to which you may seek to transfer after attending the Gemological Institute of America to determine if your diploma or certificate will transfer.

Licensed private career schools offer curricula measured in clock hours, not credit hours. Certificates of completion, i.e., school diplomas, are issued to students who meet clock hour requirements. The granting of any college credit to students who participated in and/or completed a program at a licensed private career school is solely at the discretion of the institution of higher education that the student may opt to subsequently attend.

GIA Transfer Credit Policy

GIA does not accept transfer credit from other institutions. GIA does not currently have an articulation or transfer agreement with any other institution. GIA does not accept transfer credit for experiential or equivalent learning, challenge examinations or achievement tests.

Credit for individual GIA Distance Education eLearning courses or Lab classes are not transferable into full-time On Campus programs. Students who have completed the Graduate Diamonds or Graduate Colored Stones program via Distance Education can earn the Graduate Gemologist diploma by completing the companion program on campus. For example, a student who completes the Graduate Diamonds program via Distance Education and completes the Graduate Colored Stones program on campus will earn the Graduate Gemologist diploma.

Credit for Lab classes successfully completed at any GIA location will be accepted toward applicable Distance Education programs. Credit for coursework successfully completed through an On Campus program will be accepted towards Distance Education courses or Lab classes as applicable. Students should contact the office of the dean of students for more information.
Tuition and Fees

Total charges are valid for programs, courses, and classes taking place in Hong Kong from January 1, 2021 through December 31, 2021, and are subject to change. Amounts shown are in Hong Kong Dollar.

* Total charges due on or before the class start date include tuition, books and materials. Books and materials are required.
Total Charges Do Not Include:
- Housing, food, insurance, transportation, entertainment and other living expenses
- Required equipment for students enrolled in the Gem Identification eLearning course (see below)
- Fees for completing remedial work in a Student Workroom

Additional Fees May Include:
- 500 HKD half day or 1,000 HKD full day for the use of Student Workroom
- Fees for lost or damaged equipment, precious metals and stones
- Fees for replacement books, tools and materials
- Wire transfer fees
- Academic transcripts and replacement certificates/diplomas are purchased centrally from the Carlsbad campus and are charged in U.S. dollars:
  - 40 USD certificate replacement fee
  - 45 USD diploma replacement fee
  - 10 USD fee for each transcript

Distance Education: Gem Identification 240
To complete this course, students must have access to the required equipment which is not included with the course materials. See Required Equipment on page 24

Students who do not have access to this equipment may chose to purchase the GIA Gem Identification Student Package at store.GIA.edu. This package does not include a binocular microscope. Students may also purchase this equipment through GIA Hong Kong. Please contact us at +852 3166 7001 or giahongkong@gia.edu for more information.

As an alternative, students can complete assignments in a fully equipped GIA Student Workroom.
Cancellation, Withdrawal and Refund Policies

GIA’s cancellation, withdrawal and refund policies are explained in detail in this section and in your enrollment agreement. If you have questions, please contact GIA Hong Kong admissions at +852 3166 7001 or email giahongkong@gia.edu

Cancellation or Withdrawal of Enrollment

Students may cancel their enrollment at any time before their end date by notifying GIA admissions by mail or in person at 3rd Floor, New World Tower II, 16-18 Queen’s Road Central, Hong Kong; by email at giahongkong@gia.edu; by phone at +852 3166 7001; or by fax at +852 2334 0567. Students who wish to withdraw after the class has started should notify the school director.

Students will be withdrawn from class if they fail to return from a leave of absence, do not maintain satisfactory academic progress or are otherwise dismissed due to lack of attendance or violation of GIA policy. In all cases where a student’s enrollment is terminated (cancellation or withdrawal), refunds are calculated based on the Refund Policy below.

Refund Policy

All fees paid will be refunded if the course is withdrawn or not offered.

On premature cessation of the course, all fees and charges that have been collected in respect of any part of the course failing to be conducted on or after the date of the cessation will be refunded within one month of the premature cessation.

Unused books and materials, that are undamaged, are eligible for full refund upon inspection by GIA. Books and materials that are used or not returned in salable condition are not subject to refund. Optional books and materials, including applicable sales tax and shipping and handling expenses, are non-refundable.

Students are responsible for any wire fees that they incur.

If a student has obtained a loan to pay for an educational program the student has the responsibility to repay the full amount of the loan, plus interest. Students who have received a scholarship are subject to the refund policy described in their scholarship acceptance letter.

On Campus, Lab Class and Blended / Accelerated Refunds

Students will receive a full refund of all monies paid if the course is canceled by GIA. Students receive a refund of all monies paid if they cancel before the first day of class. Thereafter, a pro rata refund of tuition is calculated based on the percentage of class hours completed by the student.

Distances Education (Correspondence in Chinese) Refunds

Students receive a full refund of tuition if they cancel before submitting the first assignment and prior to the end date of the course. Thereafter, a pro rata refund of tuition is calculated based on the percentage of the number of assignments submitted for grading prior to the end date of the course.

<table>
<thead>

<td>50% of tuition</td>
<td>50% of tuition</td>
</tr>
<tr>
<td>After 50% of the class hours</td>
<td>100% of tuition</td>
<td>No refund</td>
</tr>
</tbody>
</table>

Processing Refunds

If a refund is due, it will be processed back to the original remitter in the same manner payment was received. Refunds are processed within 30 calendar days after GIA receives the notice of cancellation. The failure of a student to provide accurate and complete payment and banking information may delay a refund of tuition to the student.
Student Services

Career Services

GIA Gem & Jewelry Career Center is a free, global service for those searching for a career and looking to recruit candidates. Employers from every sector of the gem and jewelry industry list positions with us, including wholesalers, department stores, jewelry designers, auction houses, gem laboratories and many others. As a job seeker, you will be able to create a dynamic portfolio, search for careers that will help you take the next step and find companies that match your interest. New and exciting careers are listed each week; search often as there are always updated postings to consider. Create your profile so you can begin your career search at GIA.edu/gem-job

Guest Speakers

GIA regularly organizes free on campus presentations by industry professionals on an array of subjects affecting the gem and jewelry industry, such as appraising information, mining practices and finds, diamond treatments, cutting-edge lab discoveries, and colored stone controversies. All students and graduates are invited to attend. Guest speakers offer valuable and fascinating insight to assist students and graduates in their career planning.

GIA Alumni Association

You qualify as a member of the GIA Alumni Association as soon as you successfully complete a GIA course or program. GIA will automatically recognize you as an alumnus, and your membership is free. However, it is up to you to manage your GIA Alumni Membership in order to receive all the alumni benefits offered.

Current alumni benefits include an array of tools to communicate your GIA alumni status to customers and colleagues, alumni-focused publications and global events. You can also request to list yourself in the GIA Alumni Online Directory, a public search tool on GIA.edu that instantly verifies your GIA diploma credentials and leads business prospects your way. By connecting to the GIA Alumni Association, which is more than 150,000 strong, across 43 chapters worldwide, you become part of an ever-growing global community of fellow GIA graduates who offer educational, networking, and mentorship opportunities that support you throughout your career. For more information contact us at alumni@gia.edu or call +1 800 421 7250 ext. 4145 or +1 760 603 4145.

You can also visit the alumni section of the GIA website at GIA.edu/gia-alumni to manage your alumni membership, request to receive your GIA Alumni Association Member logo for use digitally and in print, sign up for alumni communications, find GIA alumni, obtain a list of our alumni chapters around the world and catch up on alumni news and events.

For more information on the Hong Kong Alumni chapter, contact admin@giaahk.com or call +852 3166 7044.

Library and Learning Resources

GIA’s Hong Kong campus has a small library with books on gems and jewelry, trade magazines and journals. No books belonging to GIA are to be taken from the premises. Photocopying is not permitted. For more details of how to use the library, please ask at reception.

The Richard T. Liddicoat Gemological Library and Information Center located at GIA’s Carlsbad campus provides a reference service for scientists, jewelers, gemologists, students, researchers, authors, and the media from every corner of the globe. Providing quick reference on topics including treatments, synthetics, business management, jewelry history, and more, the Richard T. Liddicoat Gemological Library and Information Center staff are the first point of reference for gem and jewelry professionals around the world. The Library is open from 7:30 a.m. to 5:00 p.m. Pacific Time, Monday through Friday. Contact us at library@gia.edu, or +1 760 603 4000 ext 4046.

The library section of the GIA website, GIA.edu/library, also has resources for students from recommended book lists to industry price guides. Bibliographies on a variety of gem topics are added on a continuing basis. There is also free access to a growing collection of digitized, out-of-copyright books via Internet Archive, available directly at archive.org/details/gialibrary. Through OverDrive, GIA.overdrive.com, the Library has a digital collection (eBooks and videos) of more contemporary content available to students and alumni.

Housing

Moving to a new city requires preparation and planning. Since it may take you a few weeks to find an apartment for rent, start your research six to eight weeks before your arrival at GIA in Hong Kong.

Most GIA students stay at a local hotel while they are searching for an apartment. If you plan to do so, please remember that there are times during the year when it is difficult to find a vacancy. Reserve a hotel room as far in advance as possible.

For more information or assistance, please contact us at +852 3166 7001 or giahongkong@gia.edu
Academic Policies and Procedures

These policies and requirements help to ensure the quality of every student’s academic experience. They support the investment our graduates make in their education, and help to preserve the value and integrity of GIA’s certificates and diplomas. These policies and requirements apply to all courses and programs, unless otherwise noted. Policies are subject to change.

Grading System

<table>
<thead>
<tr>
<th>Final Transcript Grade</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>P (Pass)</td>
<td>75% and above and must meet the graduation requirements</td>
</tr>
<tr>
<td>NP (No Pass)</td>
<td>74% or less and failure to meet the graduation requirements</td>
</tr>
<tr>
<td>INC (Incomplete)</td>
<td>A grade of INC (Incomplete) is a temporary grade and will be converted according to the following standards. Students must successfully complete the agreed-upon course requirements according to the written agreement between GIA and the student. Failure to complete the coursework as agreed will result in replacing the grade of INC with a grade of No Pass (NP).</td>
</tr>
<tr>
<td>SWD (Student Withdrawal)</td>
<td>Enrolled students withdrawing after the program, course or class start date receive a grade of Student Withdrawal (SWD) on their transcript. A grade of SWD will remain on a student’s permanent record.</td>
</tr>
</tbody>
</table>

Grading Policy

Students may ask their instructor for their grades at any time. Grades and enrollment history are maintained and available indefinitely.

On Campus, Blended / Accelerated Programs and Lab Classes

Homework, quizzes, and exams are normally graded within 24 hours of receipt by GIA (excluding holidays and weekends) and in the order they are received.

Distance Education (Correspondence in Chinese)

For final exams, it is recommended that Distance Education students allow time for the maximum of three proctored examination attempts. The first exam attempt should be taken 21 days prior to the course completion date. (Each exam request may require up to three business days for processing, not including weekends or holidays.)

For practical exams, it is recommended that Distance Education students allow time for the maximum of ten proctored 20-stone examination attempts, and remedial work if applicable. The first exam attempt should be taken several months prior to the course end date. Each exam request may require up to three business days for processing, not including weekends or holidays.

On Campus Orientation

On Campus and Blended / Accelerated students must complete an in-person orientation prior to the first day of class. If you are unable to attend the scheduled in-person orientation, contact admissions as soon as possible to reschedule. You will not be allowed to attend class until you have fulfilled the orientation requirements.

Attendance Policy

Attendance and punctuality are two keys to success at GIA. The curriculum is intense, and students are strongly encouraged not to miss any lectures or lab time. Classes begin promptly at their scheduled starting times. A student may not leave the classroom without advising the class instructor, other than at regularly scheduled break times. Attendance is taken in the morning and at each break. Students who are not in the classroom at that time are marked absent or tardy.

- Absence is defined as being out of class for one hour or more during daily scheduled class hours, without the instructor’s permission, except during scheduled breaks. Absences are recorded in half-day increments.
- Tardiness is defined as being absent from the classroom for less than one hour during the daily scheduled class hours, without the instructor’s permission, except during scheduled breaks.

Students are responsible for being aware of how many times they have been tardy and absent. Students may ask their instructor for an update on their attendance record at any time. The maximum allowable absences and tardies are listed in the table on page 33.

On Campus Students

For the Graduate Gemologist program, a maximum of five tardies and three absences may be used in the first seven weeks of the program. Thereafter, the remaining tardies and absences may be used. Students who approach the maximum limit may be given a courtesy notice by their instructor. Students who accumulate one absence or tardy less than the maximum limit are placed on Attendance Probation and notified in writing. If a student exceeds the maximum allowable tardies, each additional tardy will count as a half-day absence. Students who accumulate more than the maximum number of absences are dismissed and receive a grade of SWD on their final transcript.

Lab Class Students

Lab students who miss any portion of the first day of class, or who otherwise exceed the maximum number of absences, are dismissed and receive a grade of SWD on their final transcript.
Maximum Allowable Tardies and Absences
Attendance is applicable to the course or program to which you are enrolled.

</tbody>
</table>

* Students may only use a maximum of five tardies and three absences in the first seven weeks of the program.

Clock Hours
Clock hours are the number of classroom hours scheduled for each course or program. One classroom clock hour equals a minimum of 50 instructional minutes within a 60-minute time period. The clock hours for each program, course and class are included in the class descriptions.

Classroom Policies
GIA is dedicated in its efforts to uphold academic integrity. As such, students are required to adhere to the following:

- All students must work individually unless an instructor directs otherwise.
- Non-GIA issued personal tools are not allowed in the classroom or student workroom. Exceptions may be granted for safety or ergonomic considerations, only if approved through the instructor. If approved and allowed in the classroom, GIA is not responsible for loss of or damage to non-GIA issued personal tools.
- Photography or reproduction of quizzes, exams, keycards, worksheets, education gemstones and any other materials is strictly prohibited without instructor permission.
- Keycards are the property of GIA and cannot be taken from any classroom.
- Students cannot take blank or completed worksheets, quizzes or exams out of the classroom.
- Students cannot remove any projects or materials from the classroom without their instructor’s permission.
- Cell phones and other mobile communication devices must be set on silent mode and must be out of sight; they may not be used for accessing social media and the Internet, texting or making phone calls during class hours. Use of such devices in the classroom is strictly prohibited unless otherwise approved by your instructor.
- Eating is not permitted in classrooms. However, beverages in closed containers are allowed.

Testing Policy
Quizzes and exams measure each student’s comprehension of the curriculum and mastery of skills. They also keep students motivated and committed to their studies. The following requirements apply unless otherwise approved or directed by your instructor or proctor.

- All written and practical quizzes and exams are the property of GIA and shall not be removed from the classroom by anyone other than the instructor or other designated representatives.
- Quizzes, tests and exams not taken on scheduled dates and times receive a score of zero. A student may be approved to retake a missed quiz on the basis of mitigating circumstances such as death in the family, student’s injury or illness or other special circumstances as determined by the institution.
- Unauthorized electronic devices cannot be used during the examination period.
- Quizzes and exams in progress may be declared null and void if a classroom has to be evacuated for any reason. The quiz or exam will be rescheduled, if necessary.
- All quiz, test and exam submissions are final.
- Reviews of specific exam questions are only given to On Campus, Accelerated and Distance Education Correspondence gemology students who did not pass.
- Reconstructing quiz and exam questions, and sharing or exchanging them in any manner with other students or obtaining such information from any source, is prohibited.
- Failure to report known or suspected cheating or academic dishonesty is a violation of the Student Code of Conduct.
- Copying, faxing, scanning, photographing and recording quiz or exam questions and materials by any electronic, digital or physical means, at any time, is prohibited.
- All written and practical quizzes and exams must be completed within the specified time limit. All written and practical quizzes and exams must be taken on a GIA campus or with a GIA-approved proctor, unless you are taking an unproctored exam.
- Exams sent to a proctor must remain in the proctor’s custody and control at all times.
- All quizzes and exams are closed-book unless the instructor indicates otherwise. Non-native English speaking students may use a printed English translation dictionary during quizzes or exams, but only after it has been examined by the instructor.
- Electronic language dictionaries cannot be used at any time during quizzes and exams.
- Only standard, nonprogrammable calculators are allowed.
- Cameras and other visual or audio recording devices are not allowed at any time during exams.
- Cell phones and other mobile communication devices must be turned off and placed in a designated location. Use of such devices in the classroom and during testing is strictly prohibited unless otherwise approved by your instructor or proctor.
- GIA-provided electronic test-taking devices may be used in some classes; follow the directions of your instructor.
Distance Education Exams

Many Distance Education exams must be taken in the presence of an approved proctor. For students enrolled through the Hong Kong campus, these exams must be taken in the Student Workroom. Please contact us at +852 3166 7001 or giahongkong@gia.edu to determine availability and schedule your exam. There is no fee to take an exam on campus.

Excluding Gem Identification, a maximum of three examination attempts will be permitted for correspondence courses.

For students who do not achieve a passing grade after three attempts, regardless of their course end date, a final grade of NP (No Pass) is entered on their official transcript. Students who wish to re-enroll into a course are required pay current full tuition and fees and complete all course assignments and exams with a passing score within the allowed completion time.

For the Gem Identification course, a maximum of ten 20-stone examination attempts are permitted. Distance Education students who fail the Gem Identification course 20-stone examination five times are required to complete remedial work prior to attempting the exam again.

Distance Education students who do not achieve a passing grade on the tenth examination attempt, regardless of their course end date, receive a final grade of NP on their official transcript. Students who wish to re-enroll into a course are required pay current full tuition and fees and complete all course assignments and exams with a passing score within the allowed completion time.

Academic Dishonesty

GIA regards cheating as a very serious matter. Students are expected to do their own work at all times and must adhere to the Testing Policy. Cheating is defined as any unauthorized assistance in meeting the requirements of a class, including but not necessarily limited to the following:

- Copying class work or homework from other students
- Reproducing or copying keycards
- Turning in work done by someone else
- Giving unauthorized aid to another student or receiving unauthorized aid from another person on assignments, projects, quizzes, homework or examinations
- Taking a proctored exam without the supervision of an approved proctor
- Using unauthorized electronic devices
- Being in unauthorized possession of practical assignments or projects
- Failure to report known or suspected cheating or academic dishonesty
- Photographing or reproducing quizzes, exams, worksheets, keycards, education gemstones and any other academically sensitive materials is strictly prohibited without instructor permission

Student Identity Verification

GIA has processes in place through which we establish that the student who registers in a course or program is the same student who participates in and completes the course or program and receives the academic credit. GIA verifies the identity of a student who participates in class or coursework by using at least one of the following options in all programs, courses, and classes in Hong Kong:

- A copy of a government-issued photo ID or passport identifying full name, birth date, citizenship, and country of birth
- Proctored examinations where a qualified proctor approved by GIA must verify the identity of the student taking the exam
- Class attendance recorded and monitored by instructor

Satisfactory Academic Progress (SAP) Policy

GIA monitors students’ academic progress to ensure students are moving toward successful completion of their program or course. Students receive academic progress reports at scheduled benchmarks during the program or course. Students may request a conference with their instructor at any time to discuss their progress.

On Campus (Graduate Gemologist)

SAP is evaluated on both qualitative (grade-based) and quantitative (time-based) measures at the midpoint of the program, which corresponds to the end of the first federal financial aid payment period. SAP is evaluated on the following measures:

- Grading standards: Students must maintain a cumulative average score of 75% or higher on all coursework including homework, practical assignments, quizzes and tests as well as minimum completion requirements for practical work as specified in the program syllabus.
- Pace of progression: Students must progress through the program at a pace that ensures they will complete their program within a maximum timeframe of 150% of the published program length. Pace is calculated by dividing the number of clock hours the student has completed by the number of clock hours the student has attempted. The student’s completion ratio must be 67% or higher. Pace is calculated and reviewed in both hours and weeks.
- Maximum timeframe: The maximum timeframe in which students must complete the educational program may not exceed 150% of the published program length, measured in calendar time and clock hours. Additionally, federal regulations state that a student is ineligible for federal aid when it becomes mathematically impossible to complete their program within 150% of the published program length. Students who exceed the maximum timeframe of 150% will be dismissed.

Withdrawals (SWD) and Incomplete (INC) grades are considered in cumulative grading standards and as attempted hours in pace of progression and maximum timeframe measures.
All students who fail to meet SAP requirements at the midpoint of the program, as articulated above, are placed on Academic Probation, notified in writing and issued an Academic Improvement Plan. Students who do not meet the terms of their Academic Improvement Plan are dismissed.

In addition to the SAP requirements above, students are held to institutional academic standards evaluated at benchmarks specified in the program or course syllabus. Students who do not meet these academic standards are placed on Academic Advising, notified in writing and issued an Academic Improvement Plan. Students who do not meet the conditions of their Academic Improvement Plan are dismissed.

On Campus (Graduate Diamonds, Graduate Colored Stones, Jewelry Design)
Students are held to academic standards evaluated at benchmarks specified in the program or course syllabus. Each student's homework, projects, quizzes and tests are evaluated. Students who do not meet these academic standards are placed on Academic Advising, notified in writing and issued an Academic Improvement Plan. Students who do not meet the conditions of their Academic Improvement Plan are dismissed. Students must complete their program or course within a maximum timeframe not exceeding 150% of the published program length, measured in calendar time and clock hours.

Distance Education
Students must pass each course assignment with a score of 75% or higher. Students enrolled in SEM 240 Gem Identification course must also meet specific grading criteria for each practical assignment. Students who do not complete their course including assignments, practical work and the final exam within the allowed completion time will receive a final grade of No Pass (NP).

Lab class students are expected to attend scheduled classroom hours and participate in lectures, discussions and hands-on lab sessions in order to successfully progress through the class. Students who exceed the maximum allowable absences as described in the Attendance Policy are dismissed. Students must pass the final assessment within the allowable number of attempts to pass the class. Students who do not pass will receive a final grade of No Pass (NP).

Academic Advising and Probation
Students who do not meet academic, attendance or behavior standards may be placed on academic advising or a probation status as described below. The purpose is to notify students in writing that their performance is not meeting standards, set goals for improvement and give students a reasonable amount of time to raise their performance to meet or exceed minimum requirements.

Academic Advising
On Campus students who do not meet institutional academic standards are placed on Academic Advising and issued an Academic Improvement Plan. The student's progress is monitored by the instructor and the school director. If the student meets all conditions by the date specified in their Academic Plan, the student's academic status is returned to good standing. Students who do not meet the conditions of their Academic Improvement Plan are dismissed.

Academic Probation
On Campus students enrolled in the Graduate Gemologist program who fail to meet satisfactory academic progress requirements at the midpoint of their program are placed on Academic Probation, notified in writing and issued an Academic Improvement Plan. The student's progress is monitored by the instructor and the school director. If the student meets all conditions by the date specified in their Academic Plan, the student's academic status is returned to good standing. Students who do not meet the conditions of their Academic Improvement Plan are dismissed.

Attendance Probation
On Campus students who accumulate one absence or tardy less than the maximum number of allowable are placed on Attendance Probation and notified in writing. Students who accumulate more than the maximum number of absences are dismissed.

Behavioral Probation
Students who do not comply with the Student Code of Conduct and Standards of Behavior may be placed on Behavioral Probation and notified in writing. Students who do not meet the terms of their Behavioral Probation are dismissed.

Extended Lab
GIA may schedule additional lab hours for gemology students who are not making satisfactory academic progress.
Make-Up Policy

The attendance policy allows for a limited number of absences and tardies, and there is no provision for making up missed class hours. Students are strongly advised not to miss scheduled quizzes, tests or exams. Students who are not present for a scheduled quiz, test or exam receive a score of zero.

A student may be approved to make-up a missed quiz, test or exam on the basis of mitigating circumstances as determined by the institution. Students must submit make-up requests to the school director.

Leave of Absence Policy

Students may request a leave of absence (LOA) at any time during their studies with proper cause and supporting documentation. An LOA will be approved for a documented family emergency, serious illness or for active military duty. Students enrolled in lab classes are not eligible for a leave of absence.

The LOA request must be submitted in writing, and usually in advance, by the student, unless an unforeseen circumstance prevents the student from submitting the request in writing and in advance. If approved, a Change of Status form is generated that must be signed by the student and by GIA. Contact the school director if you have questions or for additional information.

The maximum length of time for a leave of absence is 180 calendar days. A student may be granted more than one leave of absence, but the combined leaves of absence cannot exceed 180 calendar days within a 12-month period. Students requesting an extension of an approved leave must make the request in writing to the school director prior to the expiration of their original LOA. Students must pick a date to return within 180 days when filing for a leave of absence. Students are required to provide the expected date of return within five business days of submitting their LOA request, or they will be withdrawn from their program or course.

Students who do not return as agreed following a LOA are dismissed from their course of study, a grade of SWD (Student Withdrawal) is posted and the published refund policy is applied. Students who wish to continue their studies are required to re-enroll into the class, course or program from the beginning at current tuition and fees.

Dismissal Policy

GIA may terminate a student’s enrollment for academic, attendance or behavioral reasons at any time. Reasons for dismissal include, but are not limited to:

- Violation(s) of Student Code of Conduct and Standards of Behavior and other institutional policies
- Failure to maintain satisfactory academic progress
- Cheating or any other form of academic dishonesty
- Failure to abide by the attendance policy
- Offensive, disruptive, threatening, harassing, bullying or insubordinate behavior
- Stealing school property or the personal property of any individual
- Use, possession or sale of alcohol, illegal drugs or controlled substances anywhere on school premises
- Possession of firearms or other weapons on school premises
- Providing false information and/or willfully omitting information on any GIA document or form
- Conducting any activities that harm the name, reputation or property of GIA

Upon dismissal, a grade of SWD is posted to the student’s permanent record. Refunds will be calculated according to the terms of the student’s enrollment agreement and GIA’s refund policy.

International students dismissed from their course or program may be in violation of their visa status.

Appeal for Readmission Following Dismissal

Students who are dismissed receive a written statement of the reason for their dismissal and any readmission terms or conditions. Students who wish to be readmitted into any GIA program, course or class after dismissal must submit a formal appeal. Submitting an appeal does not guarantee readmission. Readmission is at the sole discretion of GIA, and is subject to space availability. Current tuition and fees apply.

Appeal Process

On Campus students who are dismissed for attendance or academic reasons, and any student dismissed for behavioral reasons, must submit a completed Appeal of Dismissal Form and any additional supporting documentation to the school director. Appeals are reviewed by the Appeals Committee and the director will notify the student of the decision in writing within ten business days of the receipt of the appeal.

If an appeal is approved, the student may apply for readmission. Students who are retaking the same course or program are required to re-enroll into the program from the beginning at current tuition and fees.

A student may submit a maximum of three appeals. If a student is dismissed for behavior reasons and his/her first appeal is denied, subsequent appeals will only be considered following a two-year waiting period.
Graduation Requirements

In order to graduate, all students must meet the Satisfactory Academic Progress Policy, meet the minimum attendance and behavioral standards, and meet the specific academic requirements shown on the following tables. A minimum final grade of Pass (P) is required to complete each program, course or Lab class. All tuition accounts and miscellaneous student fees must be paid in full, and all stones, equipment, library books and materials must be returned in good condition prior to graduation. Certificates and diplomas are not awarded until all educational and financial obligations are met.

* One exam attempt is taken in class. Additional exam attempts are taken in a Student Workroom at no charge. Students who fail the exam three times will be required to complete additional remedial work prior to attempting the exam again. Standard Student Workroom fees apply to complete remedial work (see fees on page 28).

** Students who fail the Gem Identification course 20-stone examination five times will be required to complete additional remedial work prior to attempting the exam again. If you use a Student Workroom to complete remedial work, standard Student Workroom fees apply (see fees on page 28). Exam attempts must be taken within the course completion time.
Academic Records

Student records are retained in accordance with federal, state and accreditation requirements. The care and protection of student data is of utmost importance. GIA maintains a comprehensive global privacy policy that may be found on our website at GIA.edu/privacy-policy.

Letters of Good Standing

It is GIA’s policy not to issue letters of recommendation. On request, GIA’s Hoog Kong campus will issue letters of good standing as proof of student status, typically needed by insurance companies or other agencies as evidence of full-time student status.

Transcripts

Transcripts are available for 10 USD each. Students who enrolled in 2013 or later may order a transcript at my.GIA.edu. Students who enrolled prior to 2013 should contact education records at records@gia.edu to order a transcript.

Diploma and Certificate Holds

Please note that diplomas and certificates will be issued only if you have satisfied all your academic and financial obligations. If you have any unmet obligations to GIA, you will not receive a diploma or certificate until the obligation is fulfilled.

Replacement Diplomas

If your diploma was permanently lost or destroyed, a replacement diploma may be ordered from the education records department at records@gia.edu. Each replacement diploma follows the current diploma format and includes the reissue date. All replacement diplomas bear the signatures of GIA’s current Chair of the Board of Governors, and President and CEO.

Change of Name

GIA requires official documentation and written authorization to make changes or corrections to the name listed in your student account. You must submit one item of documentation that shows the current/old name that is in our records, and one item of documentation that shows your new/updated name. The following documentation is acceptable:

- Valid government-issued photo ID
- Marriage certificate
- Divorce decree
- Naturalization documents

Preferred Name

GIA recognizes that some community members wish to use a first name other than a legal first name to identify themselves. Students may provide a preferred first name in this case. A person’s legal first, middle, and last name as it appears on official governmental documents is required for official student records and will appear on all transcripts, certificates and diplomas.

Education Verification

Those wanting to confirm a GIA graduate’s credentials may check the GIA Alumni Online Directory. The search results will return those graduates who have opted to have their information displayed online.

Individuals may also submit a written request to verify a graduate’s credentials by submitting the request form on our website located at gia.edu/doc/GIA_Education_Verification-Request.pdf. For information about directory information that may or may not be released, see The U.S. Family Educational Rights and Privacy Act (“FERPA”) on page 43.

Earn your GIA credential and find your ideal career.
Academic Policies and Procedures (cont.)

Academic Credentials Usage Policy

**Applicability**
Usage guidelines apply to all current and former students of the Gemological Institute of America, Inc. and its related entities (collectively referred to as GIA).

**Usage Guidelines for Academic Credentials**
Academic credentials earned at GIA are respected by gem and jewelry professionals around the world. They are the internationally recognized symbol of the highest standard of education in the fields of gemology, jewelry manufacturing arts and jewelry business.

It is appropriate and customary for recipients of GIA diplomas to signal their achievement by appending the relevant academic designation to the end of their name. It should be noted, however, that GIA alumni are required to abide by specific standards of usage.

Although the following examples do not reference every diploma offered by the Institute, they should help you determine how GIA’s Usage Guidelines for Academic Credentials apply to you.

**General Usage**
You may reproduce and display your GIA diploma, certificate or letter of completion in its entirety. Note that when a credential is advertised, it must be used in association with the recipient’s name, and the advertisement must not in any way state or imply an affiliation with, or endorsement by, GIA.

Only the acknowledgment of a diploma or degree from GIA should be placed on business cards. Individual coursework that is completed but does not result in a diploma is best listed on résumés and curriculum vitae.

**Diplomas**
The following examples refer to the Graduate Gemologist® (GG), Accredited Jewelry Professional or Applied Jewelry Professional™ (AJP®), Gemologist, Jewelry Design & Technology (JDT), and Graduate Jeweler (GJ) diplomas:

- John Doe, GIA Graduate Gemologist, or John Doe, GIA GG
- Jane Doe, GIA Applied Jewelry Professional, or Jane Doe, GIA AJP
- Jane Doe, GIA Jewelry Design & Technology, or Jane Doe, GIA JDT
- John Doe, GIA Graduate Jeweler, or John Doe, GIA GJ
- Jane Doe, GIA GG, GJ

The following examples refer to the Graduate Diamonds®, Graduate Colored Stones and Graduate Pearls diplomas:

- Jane Doe, GIA Diamonds Graduate
- John Doe, GIA Colored Stones Graduate
- Jane Doe, GIA Pearls Graduate

**Employment Citations**
Companies may state that they have GIA Graduate Gemologists, Applied Jewelry Professional™ (AJP®), Accredited Jewelry Professionals, Gemologists, Graduate Jewelers, or Jewelry Design & Technology graduates on staff, provided that such statements are accurate and companies agree to cooperate with any verification that may be requested by GIA or others.
Administrative Policies

This section includes a collection of student conduct standards, policies, and procedures that describe the responsibilities of students as individuals, members of the community, and representatives of the institution, as well as the rights, protections, and privileges that come with being part of the GIA family.

Student Code of Conduct and Standards of Behavior

GIA’s Student Code of Conduct and Standards of Behavior protects the rights of students and employees and ensures a safe, secure and positive learning environment for all students. GIA students are expected to behave in a professional manner and to treat others with dignity and respect at all times. Students are responsible for reading, understanding and following all GIA student policies. Students are required to follow all instructions given by instructors or other GIA representatives.

Prohibited behavior includes, but is not limited to:

- Threatening or harassing behavior, including sexual harassment or misconduct
- Acts of retaliation against another student or GIA staff member
- Acts or threats of violence
- Possession of a firearm or other weapon on campus
- Use, sale, purchase, transfer, manufacture, distribution, or possession of illegal drugs, controlled substances or alcohol
- Forgery, fraud or dishonesty
- Disruptive, insubordinate or unlawful behavior
- Academic dishonesty
- Property damage or theft
- Other violation of GIA policy

Violations

Students or employees who become aware of anything that seems unsafe, improper, or illegal must report it to a GIA staff member immediately. A designated school official will commence an investigation into allegations of violation of student code of conduct. The student will be afforded the opportunity to be heard. Students are required to cooperate with all GIA representatives during an investigation in which GIA believes the student(s) may provide relevant information. GIA considers all of the information collected during the investigation in the decision-making process.

Sanctions

As a result of the investigation, with sufficient evidence, GIA at its sole discretion may impose one or more sanctions, depending upon factors that include the nature and severity of the offense. Sanctions may include verbal warning, written warning or probation, or dismissal. In cases involving potential criminal conduct, GIA will determine in its sole discretion whether the appropriate law enforcement or other authorities will be notified. To maintain the safety and the integrity of its investigation, GIA reserves the right to suspend students pending investigation.

Because it is impossible to list all the rules that might cover every situation, GIA will make every effort to operate on the fundamental principle of mutual trust and respect among all students, faculty, staff and administration.

Drug and Alcohol Abuse Prevention Policy

GIA prohibits the unlawful use, sale, purchase, transfer, manufacture, distribution, or possession of illegal drugs, controlled substances, or alcohol on GIA premises, while using GIA vehicles or equipment, while performing GIA business, or at GIA-sponsored events. The terms “illegal drugs” and “controlled substances” include all chemical substances and drugs. Prescription medications that have not been properly prescribed by a doctor to the individual are included in this policy.

Any student or person in the school community who is aware of the use or existence of any such substances at GIA should notify a staff member immediately.

Violation of this Policy will result in disciplinary action up to and including dismissal. In addition to GIA imposed sanctions, students may be subject to federal, state, and local fines and/or prosecution. In cases involving potential criminal conduct, GIA will determine at its sole discretion whether the appropriate law enforcement or other authorities will be notified.

Smoking

Smoking, including e-cigarettes, or use of tobacco in any other form, is strictly prohibited inside GIA buildings. Please also refrain from smoking in front of the building. There are designated outdoor smoking areas. Please help to keep these facilities clean by placing package wrappers, cigarette butts, and other debris in designated containers.
Safety in the Classroom

GIA is committed to maintaining a safe and healthy campus. Students spend much of their time in hands-on laboratory sessions. During these sessions, students may use chemicals, equipment, and tools that can be hazardous if they are handled incorrectly or without taking proper precautions. Students must always follow their instructor's directions when using dangerous tools or hazardous substances, and wash their hands thoroughly after handling any chemicals.

Student Notification of Classroom Chemical Usage
GIA recommends the use of good laboratory practices while using or being exposed to Refractive Index (RI) Liquid, which contains Diiodomethane. RI liquid is used in the Graduate Colored Stones program, the Gem Identification Lab class, and the Student Workroom. You may need to exercise special precautions if you are pregnant, if you have certain medical conditions, and/or if you have sensitivity or are allergic to this chemical. If you are unsure, contact your doctor for advice.

GIA provides protective gloves and appropriate disposal containers in each classroom. The Safety Data Sheet (SDS) is posted in each classroom and GIA will provide a copy on request.

Novel Coronavirus (COVID-19) Safety Guidelines
The health and safety of everyone at the Institute is our priority. We strictly follow all applicable regulations and health orders and take every appropriate step to keep our educational facilities safe. Each member of the GIA educational community is responsible for respecting and supporting the health, safety, and well-being of themselves and others. This commitment that we make to each other is especially important now, as the school faces evolving challenges while operating in the context of the COVID-19 pandemic. All academic activities and campus operations are aligned with the goal of preventing the spread of COVID-19.

The latest information, guidance and protocols for the Hong Kong campus are posted on GIA's website at https://www.gia.edu/coronavirus-update-hong-kong-campus

Failure to comply with GIA’s health and safety protocols may result in disciplinary action up to and including dismissal.

Typhoon and Storming Arrangement

When Typhoon Signal No.8 or above or a Black Storming Signal is hoisted, no class will be held.

- When Typhoon Signal No.8 or a Black Storming Signal is off after 8:00 a.m., morning class will be canceled.
- When Typhoon Signal No.8 or a Black Storming Signal is off after 11:00 a.m., the afternoon class will be canceled.
- When Typhoon Signal No.8 or a Black Storming Signal is off after 1:00 p.m., the night class will be canceled.

Weapons

Under no circumstances are students or visitors allowed to bring firearms or other weapons to campus. Students found carrying or concealing weapons are disciplined, up to and including dismissal from GIA and referral to appropriate law enforcement agencies.

Search and Seizure

GIA may open and inspect the contents of any student’s desk, locker, computer files and software, or other furnishings, if warranted in its judgment, to ensure the health and safety of students and employees. GIA, an independent security service or law enforcement may conduct inspections or searches at any time without notice, including at times when the student is not present. In light of this policy, students should not bring to or store on GIA premises any documents, materials or other item for which they desire privacy. Personal items such as backpacks, purses, totes or other belongings may be subject to search if warranted. Failure to cooperate in any inspection can lead to disciplinary action, up to and including dismissal from GIA.

Video and Audio Monitoring

Due to the nature of its business, GIA must ensure the integrity and security of its premises and processes, including but not limited to customer service and the handling of valuable customer property. Accordingly, GIA uses both electronic video and audio monitoring in the workplace. The monitored content may include students’ personal data, including without limitation video recordings, audio recordings, footage and photographs of students, casual communications near these locations, and name or any other personal data revealed in video or audio recordings. We do so on the basis of compliance with a legal obligation or for our legitimate interests to protect our business, locations, workers and other parties. Students should not have an expectation of privacy in any public or work areas (GIA does not monitor restrooms or dressing areas). Each facility has signage posted in the locations where video and audio monitoring is occurring. Please see Student Privacy Notice at GIA.edu/privacy-notice for complete disclosure.

Student Privacy Notice

GIA values the privacy of your personal data. This Student Privacy Notice ("Notice") describes GIA’s policies and practices regarding our collection, use, and handling of your personal data in connection with your relationship with GIA as an educational services applicant, student, or alumni.

If you use GIA websites other than as an educational services applicant, student, or alumni, your use of those other GIA websites and any information that you submit to us through those other GIA websites will be governed by the posted GIA website privacy notice.

For complete disclosure and updates, please refer to the GIA Privacy Notice at GIA.edu/privacy-notice and to the Student Privacy Notice at GIA.edu/privacy-notice#student-notice.

GIA 2021 Education Catalog - Hong Kong
Student Personal Data Collection, Use and Processing

In connection with your relationship with GIA, GIA collects personal data about you (whether online, in-person, or through other means) from the following sources: directly from you; from our affiliated entities, including our subsidiaries and branch offices; from service providers; from alumni chapters; and automatically as you visit GIA websites.

We use your Personal Data for the purposes described in further detail in the Student Privacy Notice at GIA.edu/privacy-notice#student-privacy-notice, including to facilitate your experience with GIA and provide you with educational services and related products. We may share your Personal Data with our GIA Affiliated Entities at GIA.edu/affiliated-entities and others as described in this Notice.

Providing your Personal Data is voluntary. Please note, however, that without your Personal Data, we may be unable to provide you with the educational services and related products you request.

The U.S. Family Educational Rights and Privacy Act ("FERPA")

The U.S. Family Educational Rights and Privacy Act ("FERPA") affords eligible students ("student," or "you") certain rights with respect to their education records. (An "eligible student" under FERPA is a student who is 18 years of age or older or who attends a postsecondary institution at any age).

Student rights include:

1. The right to inspect and review your education records within 45 days after the day the Gemological Institute of America, Inc. ("GIA," or the "Institute") receives a request for access.
2. The right to request the amendment of your education records that you believe is inaccurate, misleading or otherwise in violation of your privacy rights under FERPA.
3. The right to provide written consent before GIA discloses personally identifiable information ("PII") from your education records, except to the extent that FERPA authorizes disclosure without consent.
4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by GIA to comply with the requirements of FERPA. The name and address of the office that administers FERPA is:

   Family Policy Compliance Office U.S. Department of Education
   400 Maryland Avenue, SW Washington, DC 20202

Disclosures that GIA May Make Without Student Consent:

FERPA permits the disclosure of PII from your education records, without your consent, if the disclosure meets certain conditions found in § 99.31 of the FERPA regulations. Except for disclosures to school officials, disclosures related to some judicial orders or lawfully issued subpoenas, disclosures of directory information, and disclosures to you, § 99.32 of FERPA regulations requires GIA to record the disclosure. You have a right to inspect and review the record of disclosures.

Under the Family Educational Rights and Privacy Act (FERPA) CFR 34 § 99.37. (§ 99.31(a)(11), GIA has designated the following as "directory information" that may be released from education records without obtaining prior written consent from you: Title, first name, last name, business name, business address, business website, email, phone number, fields of study, dates of enrollment, degrees, diplomas, certificates awarded, dates conferred, academic honors and awards received.

Please refer to the Notification of Rights under the Family Educational Rights and Privacy Act ("FERPA") at GIA.edu/ferpa for more information.

Reasonable Accommodation

GIA is committed to ensuring equal access to its programs and activities for qualified individuals, including individuals with disabilities. GIA does not discriminate against individuals with disabilities seeking to apply to its programs. GIA will make efforts to accommodate each prospective candidate with special requirements or needs by making reasonable adjustments where appropriate. Each circumstance will be considered on an individual basis according to the means, limits, and experience of GIA and the special request under consideration, at the time of such request. Each course requires students to perform particular physical and cognitive tasks. Upon request, GIA is pleased to discuss these tasks with you to allow you to evaluate your potential for success and your decision to apply. Students may make an appointment to discuss the request with the school director.

Students requesting accommodations are asked to do so following admission to GIA and at least 30 days prior to the date accommodations will be needed. However, requests may be submitted at any time during the student’s enrollment. Students must submit the Reasonable Accommodation Request Form along with documentation of the reported disability from a professional who is qualified in the testing of the disability to the school director. GIA will review the request and inform the student or applicant of its decision in writing.

All information submitted to or developed by the Institute related to the diagnosis, documentation, or accommodation of a disability is considered confidential. Information is only accessible to and/or shared with GIA employees who have a need to know in order to determine or implement required accommodations.

Students must continue to meet minimum academic, attendance, and behavioral standards as defined in these policies. If a student requests accommodation after being placed on academic advising or probation or is dismissed, the terms of academic advising, probation or dismissal still stand.
Complaint Policy and Procedure

Complaint Policy
GIA takes student complaints seriously. GIA reviews all complaints in a timely, fair, and equitable manner. GIA gives all individuals named in a complaint, including students, instructors, or other school employees, the opportunity to respond to the complaint. Students are required to cooperate with all GIA representatives during an investigation in which GIA believes the student(s) may provide relevant information. GIA considers all of the information collected during the investigation in the decision-making process.

Complaint Procedure
Students are encouraged to try to resolve any issues or concerns they may have by first discussing them with the appropriate school official. If the student is unable to reach a resolution, or in cases where informal resolution is not appropriate, the student may submit a formal complaint.

A formal complaint must be submitted to the school director in writing at HKschooldirector@gia.edu. It must contain, at a minimum, the basis of any allegation, all relevant names and dates, and a brief description of the actions forming the basis of the complaint. Copies of available documents, materials, or additional reasonable and credible information that support the complaint should also be included.

Students should raise complaints as soon as possible so that they can be properly addressed. Within 10 business days of receiving the complaint, the office of the dean of students will respond to the student with a written summary of the school’s investigation and decision regarding the complaint. If the investigation is not complete at the end of 10 business days, the student will be notified in writing that additional time is needed.

After having received the school director’s response, if the student does not feel that the school has adequately addressed the complaint, the student may contact GIA World Headquarters by emailing the dean of students at deansstudents@gia.edu. Again, the complaint must contain, at a minimum, the basis of the allegation, all relevant names and dates, and a brief description of the actions forming the basis of the complaint. Copies of available documents, materials, or additional reasonable and credible information that supports the allegation should also be included. Within 10 working days of receiving a complaint, the dean will respond to the complainant with a written summary of GIA’s investigation and the disposition of the complaint. If the investigation is not complete at the end of 10 working days, the complainant will be notified in writing that additional time is needed.

If for any reason a person does not feel comfortable directly reporting a complaint as described above, they may report a concern confidentially through GIA’s Concern Reporting system at GIAsis.ethicspoint.com

Complaint Disclosure
Schools accredited by the Distance Education Accrediting Commission (DEAC) must have a written complaint policy and procedure for the purpose of receiving, responding to, addressing, and resolving as appropriate, complaints made by students, faculty, administrators or any other person who has good reason to believe the school is not in compliance with DEAC standards and policies. Complaints may be submitted to the DEAC using the complaint form found on its website (deac.org), and must include authorization for the Commission to forward a copy of the complaint, including the complainant’s identity, to the school. Where issues of educational services, student services or tuition are concerned, a student must have exhausted all efforts to resolve the complaint with the school before filing a complaint with the DEAC. Students can contact the Distance Education Accrediting Commission (DEAC) at 1101 17th Street NW, Suite 808, Washington, DC 20036 USA, phone +1 202 234 5100, fax +1 202 332 1386 or online at deac.org

Non-Retaliation Policy
Threats, other forms of intimidation, and retaliation against a student or employee for bringing a complaint of harassment or discrimination or for assisting another in bringing a complaint are prohibited. Retaliation is itself a violation of GIA policy and applicable law, and is a serious offense. Acts of retaliation may result in discipline up to and including dismissal or termination.

Dress Code
GIA’s dress code helps maintain an environment that is safe, professional, respectful, and inclusive for all. Students are expected to dress in good taste and appropriate for the occasion or setting. Students are encouraged to dress comfortably with safety as an important consideration. During special occasions, such as Career Fair, business attire should be worn (shirt and tie, business suit, blazer and dress skirt/slacks). Some examples of inappropriate and unacceptable attire include bare feet, clothing with derogatory or offensive messages, revealing or see-through attire, visible undergarments and too-short shorts or skirts.

Social Networking
GIA understands the role and value of social networks. However, communication between current students and GIA employees on these networks can create the appearance of favoritism and conflicts of interest. Therefore, students and GIA employees who work together are not permitted to communicate with each other on social networks. GIA alumni and GIA employees may communicate with each other on these networks as long as they are not current students and there is no perceived or actual conflict of interest.

Commercial Activities
GIA does not permit students to conduct commercial or business activities on GIA property. The display and sale of merchandise is not permitted.
Administrative Policies (cont.)

Visitors On Campus

Visitors to GIA must register with Reception before entering the building and must be prepared to show photographic identification. Students are not allowed to let in guests whether accompanied or not without prior arrangement or an appointment with Reception.

Animals on Campus

Pets are prohibited at all times, including all facilities.

Gifts

The GIA Code of Conduct, which is adhered to by all GIA employees, provides a set of guidelines that help govern actions with all vendors, clients, students and the public GIA serves. Included in these guidelines is a stipulation that prohibits GIA employees from accepting gifts or gratuities. A PDF of GIA’s Code of Conduct can be downloaded at GIA.edu.

Lost or Damaged Equipment and Stone Policy

Students are responsible for the equipment and stones available for use in the classroom or loaned to them during the term of their enrollment. Students are responsible to pay the replacement costs of lost stones, equipment and metals and the repair costs of equipment that is damaged beyond normal wear and tear.

Students will be charged the replacement value of any jewelry, diamond or colored stone they lose. If the item is found at a later date, the amount will be refunded to the student.

Students do not have the option of replacing lost or damaged stones or equipment and must pay the replacement fee determined by GIA.

Names, Trademarks and Copyrights

GIA’s names and logos, like those of most organizations, are valid trademarks and as such may not be used in your advertising except as described herein. The same is true for GIA’s copyrighted materials (including all GIA publications, course materials and certain printed forms used by GIA), which may be used only by obtaining prior written consent from GIA. Some specific examples of GIA’s trademarks and copyrighted material that may NOT be used in your advertising without prior consent are:

- GIA (Gemological Institute of America) and its logo
- GIA Grading and Identification Reports, including but not limited to GIA Diamond Grading Report, GIA Diamond Dossier®, GIA Diamond Focus™ Report, GIA Identification Report and GIA Colored Diamond Identification and Origin Report. Use is acceptable if the report is for a product that the client/seller owns.
- GIA Facetware™ logo
- GIA educational materials and publications in any medium including but not limited to print, web, video or audio
- Gems & Gemology quarterly journal and its logo

Unauthorized Usage

It is an unauthorized use of GIA’s name to imply that GIA and/or its subsidiaries directly or indirectly certify, sponsor or approve any individual or private business including its employees, products, services and pricing. It is incorrect to state that students, graduates, their businesses or particular gemstones are “certified” by GIA. The Gemological Institute of America does not certify anyone or anything. Neither a student nor a graduate who has been awarded a certificate or diploma, nor a gem that has been graded or identified by GIA, has been “certified” by GIA.

Examples of unacceptable usage include: GIA Certified; GIA Certified Diamond Appraiser; GIA Certified Diamonds; GIA Diamond; Certified GIA Appraisals; Certified Graduate Gemologist; Member, Gemological Institute of America; Member, GIA Laboratory.

Because GIA is an educational and research institution, it is not allowed to participate in, or endorse, private business. GIA must also avoid the appearance of doing so, or its standing with the regulating and accrediting authorities could be jeopardized.

GIA does not permit the use of any of its trademarks in third-party domain names. Any use of GIA in a website domain name in the fields of diamonds, jewelry, education and related fields would constitute infringement of the GIA marks.

The use of the Facetware™ logo is not permitted. Those who wish to reference the use of GIA Facetware™ in estimating a cut grade may reference it by stating the following: “Cut grade was estimated using the GIA Facetware™ Cut Estimator.”

For intellectual property usage requests that are not covered here, please email guidelines@gia.edu.

Copyright Infringement

Students are reminded that they must comply with federal copyright laws. Unauthorized distribution of copyrighted materials, including peer-to-peer file sharing, may subject a student to civil and criminal prosecution, in addition to disciplinary action by GIA, up to and including dismissal. GIA’s complete copyright infringement policy is available at GIA.edu/copyright-infringement.

GIA Alumni Identity Program

GIA’s Alumni Identity Program is a precise set of standards and branded designs created by GIA to support and identify qualified members and recognized chapters of the GIA Alumni Association. GIA encourages our GIA alumni members and chapters to use the approved alumni identity logo and support tools to promote their education affiliation and preserve the power of the GIA mission and identity.

The GIA alumni identity is promoted, protected and maintained by GIA and use is restricted and made available only to members and chapters of the GIA Alumni Association, as long as they adhere to the GIA Alumni Association terms of use and usage guidelines. Visit GIA.edu/gia-alumni for more information.
